# PARABLE OF THE MATTHEW 13:31-32

- It has been revealed that a mustard seed is about 2mm in size.
- It is amazing to think that something so small can become something so significant.
- Something that size can make a big impact.
- The mustard seed was the smallest of all agricultural seeds in Palestine.

- A little more research revealed that a mustard seed will grow into a bush or tree between 6 to 20 feet tall and sometimes with up to a 20-foot spread.
- In addition to being a plant that provides shelter to the birds, it is also important for the following:
  - Culinary benefits
  - Medical benefits

explains the growing of the kingdom of God from the smallest beginning to a worldwide shelter for mankind.
